

# GLOBAL EQUITY VALUE STRATEGY

## WHY INVEST WITH US?

- Over 20 years of investment experience and track record
- Independence and well aligned interests
- A long-term philosophy based on “Value” which has proven its worth in both up and down markets
- Collegial, disciplined, rigorous and rational decision-making process

## SUMMARY OF THE STRATEGY

The objective of the Global Equity Value Strategy (All-Cap) is long-term capital appreciation. We invest at a fair price in quality companies that are profitable and have a solid balance sheet. We have a favourable bias towards dividends and invest with a long-term perspective.

## PROCESS

Our approach is bottom-up and based on fundamental analysis of the securities in our investment universe. Our process is rational, and executed with rigour, discipline and independence.

### RESEARCH

We produce in-depth research reports and quarterly updates on Global public companies in our investment universe. To generate investment ideas, we use a combination of quantitative filters and qualitative analysis (analysis of customers, suppliers, competitors and news). Our main valuation criteria are: valuation (multiples), balance sheet strength, profitability, and dividends.

### PORTFOLIO CONSTRUCTION

Based on our 5-level rating system (1 = strong buy, 2 = buy, 3 = hold, 4 = reduce, 5 = sell), a stock will enter the portfolio only if it has a (1) or a (2) rating. Our decision-making process is collegial and our portfolio is a reflection of our best ideas, it is therefore concentrated (between 25 and 45 positions) and allocates equal weighting to each stock.

### BUY AND SELL DECISIONS

As we have a long-term vision, the turnover rate of our portfolios is low. We add a security if it has a rating equal to or greater to 2 on a scale of 1 to 5. On the other end, we will sell out of a security if its market price becomes too expensive (high multiples), if we observe a deterioration in the balance sheet, or if there is a takeover on the stock.

## ABOUT ALLARD, ALLARD & ASSOCIÉS

Since 1995, Allard, Allard & Associés has been managing investment portfolios for the benefit of third party investors. Our diverse client base includes private clients, foundations and pension plans. Our assets under management now total more than \$750M. We were selected for Canadian and Global equity mandates in the Quebec Emerging Managers Program (QEMP), a grouping of several Quebec institutional investors, thereby marking our entry into institutional investment management in 2016.
